CONTENTS

Vol. 173, No. 1, May 1994

Editorial

Steps toward the new horizons of immunopathology continuing from the reach of my research career. *M. Kyogoku* 1

Contributions

Molecular and cellular basis for pathogenicity of autoantibodies. *S. Izui, T. Berney, T. Shibata, T. Fulpius, L. Fossati and R. Merino* 15

Nephritogenic antibodies in lupus nephritis. *A. Vogt, S. Batsfdord and T. Morioka* 31

Immunoglobulin variable-region structures in immunity and autoimmunity to DNA. *T.N. Marion, D.M. Tillman, M.K. Krishnan, D.D. Desai, N.T. Jou and M.B. Ruff* 43

Nephritogenic antibodies in MRL/lpr lupus mice: Molecular characteristics in pathological and genetic aspects. *J. Itoh, S. Takahashi, M. Ono, T. Yamamoto, M. Nose and M. Kyogoku* 65

Possible mechanisms of autoantibody production and the connection of viral infections in human autoimmune diseases. *K. Yamamoto* 75

Endogenous retroviral envelope antigens recognized by B lymphocytes during graft-versus-host reaction. *J.L. Portis* 83

Physiology and pathology of host immune responses to exogenous and endogenous murine retroviruses —— From gene fragments to epitopes ——. *M. Miyazawa and R. Fujisawa* 91

Role of endogenous retroviruses in autoimmune diseases. *M.F. Gourley, W.J. Kisch, C.F. Mojcik, L.B. King, A.M. Krieg and A.D. Steinberg* 105

Lymphocyte membrane modifications induced by HIV infection. *N. Kashiwagi, M.J. Gill, M. Adachi, D. Church, S.J. Wong, M.-C. Poon, S. Hakomori, T. Tamaoki and C. Shiozawa* 115

Genetic predisposition of autoimmune disease and B-cell chronic lymphocytic leukemia (B-CLL). *T. Shirai* 133

Autoimmune diseases as stem cell disorders. *S. Ikehara, M. Inaba, R. Yasumizu, N. Nagata, J. Toki, H. Hisha, K. Sugiura, N. Oyaizu, M. Kawamura, S. Than, F. Takao, Y. Adachi, M. Nishimura, N. Nishioka, H. Mizutani, Y. Kurata and R.A. Good* 141

Molecular analysis of the pathogenesis of autoimmune insulitis in NOD mice. *Y. Koide*, **T. Kaidoh, M. Nakamura and T.O. Yoshida** 157

Graft-versus-host reaction and GvH disease. *T. Harada* 171

Role of endothelium in chronic inflammatory synovitis. *M. Ziff* 183

Osteoporosis in rheumatoid arthritis: A molecular biological aspect of connective tissue gene activation. *S. Shiozawa and Y. Kuroki* 189

Vol. 173, No. 2, June 1994

Decreased gastric secretory functions in diabetic patients with autonomic

neuropathy. *T. Nakamura, K. Takebe, K. Imamura, T. Miyazawa, M. Ishii, K. Kudoh, A. Terada, K. Machida, H. Kikuchi, F. Kasai, Y. Tandoh, Y. Arai and N. Yamada* 199

Lipoprotein(a) as an independent risk factor for diabetic retinopathy in male patients in non-insulin-dependent diabetes mellitus. *T. Onuma, T. Kikuchi, M. Shimura, M. Tsutsui, J. Matsui, A. Boku and K. Takebe* 209

Syalil-SSEA1(SLX) levels in supernatant of cultured human lung carcinoma cell lines. *S. Kobayashi, S. Okada, H. Yoshida, T. Hasumi, N. Sato, H. Inaba, T. Nakada and S. Fujimura* 217

Effects of interleukin-1β on blood pressure, thermoregulation, and the release of vasopressin, ACTH and atrial natriuretic hormone. *T. Yamamoto, T. Kimura, K. Ota, M. Shoji, M. Inoue, M. Ohta, K. Sato, T. Funyu and K. Abe* 231

Three types of "mid-band" lipoproteins in non-insulin-dependent diabetes mellitus: Relation to metabolic abnormalities and vascular complications. *M. Shimura, T. Onuma, M. Tsutsui, T. Kikuchi, J. Matsui, A. Boku and K. Takebe* 247

Electrophysiological studies of the biceps brachii activities in supination and flexion of the elbow joint. *A. Naito, M. Yajima, H. Fukamachi, K. Ushikoshi, Y. Handa, N. Hoshimiya and Y. Shimizu* 259

Functional electrical stimulation (FES) to the biceps brachii for controlling forearm supination in the paralyzed upper extremity. *A. Naito, M. Yajima, H. Fukamachi, K. Ushikoshi, Y. Handa, N. Hoshimiya and Y. Shimizu* 269

New technology for continuous intravenous infusion via the central and portal veins in the rat. *T. Nishihira, H. Komatsu, Y. Endo, R. Shineha, J. Sagawa, T. Nakano, A. Hoshino, K. Yoshida and S. Mori* 275

Vol. 173, No. 3, July 1994

Hindquarter vascular resistance as compensator for hypotension in conscious rats. *Y. Teranishi and J. Iriuchijima* 283

Effects of unilateral phrenic nerve denervation on diaphragm contractility in rat. *C. Shindoh, W. Hida, H. Kurosawa, S. Ebihara, Y. Kikuchi, T. Takishima and K. Shirato* 291

The variation of action potential and impedance in human skeletal muscle during voluntary contraction. *T.J. Liao and H. Nishikawa* 303

Catecholamine-induced cAMP response in streptozotocin-induced diabetic rat liver. *K. Yamatani, S. Marubashi, K. Wakasugi, K. Saito, N. Sato, K. Takahashi and H. Sasaki* 311

Histomorphometric analysis of age-related changes in epithelial thickness and Langerhans cell density of the human tongue. *M. Sasaki* 321

Histological verification of bone bonding and ingrowth into porous hydroxyapatite spinous process spacer for cervical laminoplasty. *S. Kokubun, O. Kashimoto and Y. Tanaka* 337

A high-salt diet alters circadian blood pressure rhythm in Dahl rats. *J. Hashimoto, Y. Imai, N. Minami, M. Munakata, H. Sakuma, S. Sasaki, K. Yoshinaga and K. Abe* 345

Frequent overexpression of vascular endothelial growth factor gene in human renal cell carcinoma. *K. Sato, K. Terada, T. Sugiyama, S. Takahashi, M. Saito,*

M. Moriyama, H. Kakinuma, Y. Suzuki, M. Kato and T. Kato 355

Vol. 173, No. 4, August 1994

Changes of serum hepatitis C virus levels in patients with chronic hepatitis C treated with two courses of interferon administration. *Y. Saitoh, M. Miura, H. Niitsuma, N. Numata, H. Ohori, M. Ishii and T. Toyota* 361

Orally administered beraprost sodium inhibits pulmonary hypertension induced by monocrotaline in rats. *H. Yuki, S. Sato, Y. Arisaka, S. Kato and H. Tomoike* 371

Colonoscopic polypectomy with local injection of methylene blue. *A. Munakata and Y. Uno* 377

Increased expression of mineralocorticoid receptor in human ileum after total colectomy: Immunohistochemical and immunoblotting studies. *K. Fukushima, H. Sasano, I. Sasaki, H. Nagura, Y. Funayama and S. Matsuno* 383

Colorimetric microdetermination of *l*-lactate in deproteinized blood. *H. Kikuchi and T. Sato* 391

Control of diabetes during rehabilitation for diabetic stroke. *T. Sato and M. Hiwatari* 399

The pattern of respiratory infection in patients with lung cancer. *S. Kohno, H. Koga, M. Oka, J. Kadota, M. Kaku, H. Soda, K. Tomono and K. Hara* 405

Increased plasma gluconeogenic and system A amino acids in patients with pancreatic diabetes due to chronic pancreatitis in comparison with primary diabetes. *T. Nakamura, K. Takebe, K. Kudoh, M. Ishii, K. Imamura, H. Kikuchi, F. Kasai, Y. Tandoh, N. Yamada, Y. Arai, A. Terada and K. Machida* 413
